TOTAL TRAINING Solution
WHY SETTLE FOR LESS, WHEN YOU CAN HAVE IT ALL?

Introducing a secure cloud-based application with an innovative suite of features that support safety and compliance.

Discover a leading-edge, all-in-one safety training solution that enables you to:

- Create user accounts to store employees’ information, including start dates, company IDs, and driving credentials, as well as documents such as résumés and new hire forms
- Upload historical training records for new and existing employees, including expiry dates and certificates
- Set training requirements by company role and location, allowing the application to identify training gaps
- Create and assign online courses based on identified needs
- Access a central course library, comprised of training programs developed by leading subject matter experts from across the country
- Schedule hands-on classroom training sessions to supplement online theory
- Develop customized online forms and assessments for a variety of applications, including validating competencies, providing one-on-one coaching, and completing annual performance reviews

Read on to find out what this industry-leading online solution can do for you.
ACCOUNT MANAGEMENT

At the heart of the application is a robust account management system that can be used to create unique user profiles in order to store and manage all pertinent employee information.

User Information
Utilizing the integrated account management system, all of your employees’ contact details, such as addresses, phone numbers, and email addresses, can be securely accessed online.

Company Information
If your employees are assigned ID numbers, these unique identifiers can be stored together with any training requirements based on your employees’ specific company roles and locations. You can also map out relationships between employees and their managers, supervisors, instructors, mentors, coaches, and evaluators.

Driving Information
Keeping your drivers’ information up-to-date and easily accessible is simple with the integrated driver information tracking tool. This section of each employee’s profile can be used to track and store licence information, risk class, abstracts, traffic violations, collision information, annual assessments, medical and DOT certifications, hazmat endorsements, consent forms, and more. To reduce the risk of non-compliance, automated notifications can be set to warn you and your employees before their certificates expire.

Documentation
To eliminate the need to maintain physical employee files, a document management section is included in each user profile. This feature allows administrators to scan and upload documents, such as signed company policies, directly into each employee’s account.

Rewards Tracking
Included in each user profile is a rewards management tool that tracks and recognizes employee achievements. This tool enables you to set five distinct performance milestones for your employees; track and award points based on performance; record explanations for point assignment; and manage point redemption.

Training Dashboard
A training dashboard in each employee’s account displays a comprehensive list of online and classroom training courses that are available, in progress, or complete. For courses that have been completed online through this application, the training dashboard also displays test results, completion times, certificates, and more.

• Use the Notes field to add comments to an employee’s account or view system-generated entries created by the built-in audit tool
• Download employees’ training records as print-ready PDF documents
• Archive historic training records
Save valuable time, money, and effort by centrally managing and maintaining records using the integrated Training Record Management System. By uploading historical training information, including copies of certificates and associated expiry dates, you can create a powerful online database that can be accessed anytime, anywhere your team has access to the Internet.

Have lots of records? No problem. Using Excel, you can upload thousands of training records in minutes.

The application also makes it possible to receive email notifications before your employees’ training expires so you don’t find out when they arrive on the job site where delays can be costly.

**BENEFITS**

- Upload training records en masse using Excel
- Set notifications to automatically warn employees and managers of expiring certificates
- Reduce administrative costs by allowing employees to upload their own training records
TRAINING MATRIX

Wish you could automatically assign training to employees based on their job title and location? It's easy with the integrated training matrix. Simply assign approved courses to each company role and location, then allow the system to automatically provide employees with access to required online training or, if classroom training is required, the contact information of approved providers.

**Benefits**
- Upload your organization's unique company roles and training topics
- Identify approved training providers
- Design your matrix to provide employees direct and automated access to their training
Creating interactive content is easy with the application’s advanced administration interface. With just a few clicks, you can upload a wide range of multimedia files, including .flv, .mp4, .jpg, .png, .gif, .swf, and HTML5, or link to externally hosted videos from YouTube, Vimeo, and Prezi. You can also upload your own custom-built SCORM or PowerPoint courses.

Want to test your employees’ knowledge? The dynamic question builder enables you to construct exams that are either standardized for all users or customized through question and answer randomization. The question builder can also be used to develop surveys and elicit feedback from your employees.

A number of options are available when building content. One unique option is virtual proctoring. When this option is enabled, the webcam on your employees’ computers or devices will be activated so that government-issued photo ID can be presented before starting the course or exam.

Once your content is built and all desired options have been set, there are several ways to assign it to employees, including access codes and individual, location, or role-specific permissions.

**BENEFITS**

- Create content libraries to reuse an element in multiple courses, allowing all occurrences of the element to be instantly updated by simply changing the original file
- Upload print materials to supplement online content
- Package together multiple courses to create comprehensive training programs
CLASSROOM CALENDAR

Managing classroom training is made easy with the integrated classroom training calendar. Whether you want to train employees, customers, contractors, or your management team, the advanced classroom calendar enables you to create training events, reserve classrooms, assign instructors, and enroll participants. The classroom calendar also effectively manages the details of your training events, including payments, minimum and maximum enrollment levels, waitlists, course materials, and more.

**Classroom Management**
Create unique classroom profiles that contain helpful information about each venue, such as the street address, room capacity, muster points, designated parking areas, washroom locations, and available equipment.

**Course Management**
Add courses and assign them a unique title, ID number, and description. When finished, enter requirements, designate approved instructors, set the price and minimum and maximum enrollment levels, and specify the course duration, including daily start and end times.

**Instructor Management**
Designate approved instructors, upload their training history and résumés, then select the courses they are certified to teach. Instructors will be automatically notified and asked to confirm their availability for each course they are scheduled to instruct.

**BENEFITS**
- Easily schedule training events by dragging and dropping courses onto the calendar
- Reduce administration via self-registration and automated notifications
- Never double-book a classroom, instructor, or participant again
With the integrated online forms and assessments tool, you can create employee evaluations, performance reviews, competency assessments, hazard identification checklists, audit documents, inspection sheets, and more—the options are limitless. Thousands of online forms and assessments can be generated using the intuitive drag-and-drop interface. The hard work is already done for you—several types of pre-built fields are available, each of which can be easily customized to create forms and assessments from scratch.

Once created, your forms and assessments can be manually or automatically assigned to managers, evaluators, and end users, and recorded in the Training Record Management System. Based on notification settings, reminder emails can be sent to all applicable parties to help ensure that no one ever misses a form submission deadline again.

**BENEFITS**

- Design forms in a snap using the customizable pre-built fields and easy-to-use drag-and-drop interface
- Build forms and assessments that enable many types of data to be captured, including multimedia content such as images and videos
- Integrate your forms and assessments with the Training Record Management System for enhanced recordkeeping
This online course provides an overview of the Federal Motor Carrier Safety Administration (FMCSA)'s 34-Hour Restart regulations. It also covers specific language within the 2015 Consolidated and Further Continuing Appropriations Act.

### 34-Hour Restart for Property Carrying CMVs

<tr>
<td>Aerial and Scissor Lifts</td>
<td>$99.95</td>
<td>This online course covers the safe operation, inspection, and anatomy of powered industrial aerial and scissor lifts.</td>
</tr>
<tr>
<td>Aerial Platform</td>
<td>$99.95</td>
<td>This online course teaches safe operation of straight telescoping, articulating, and scissor lift aerial platforms. It complies with theory training requirements outlined in CSA standards B354.2/B354.4, as well as ANSI standards A92.5/A92.6.</td>
</tr>
<tr>
<td>Air Brakes Study Guide</td>
<td>$49.95</td>
<td>This online course is designed as a refresher and study aid for individuals who will write an Alberta Air Brake knowledge test at a registry. This course is also ideal for individuals or corporations with employees who need air brake refresher training.</td>
</tr>
<tr>
<td>Alcohol and Drug Awareness</td>
<td>$39.95</td>
<td>This online course emphasizes the seriousness of being “fit-for-work” and identifies personal responsibilities as they relate to ensuring the health and safety of all workers.</td>
</tr>
<tr>
<td>Arc Flash Awareness</td>
<td>$44.95</td>
<td>This online course offers a well-rounded approach to the basics of electrical safety and helps increase understanding of the dangers of electricity from both a shock protection and an arc flash point of view.</td>
</tr>
<tr>
<td>Asbestos Awareness</td>
<td>$49.95</td>
<td>This online course is specifically designed to provide an understanding of the hazards associated with working around asbestos.</td>
</tr>
<tr>
<td>Asbestos Hazard Awareness</td>
<td>$59.95</td>
<td>This online course will educate learners on the effects of asbestos, as well as how to identify and mitigate risks related to exposure.</td>
</tr>
<tr>
<td>Back Safety</td>
<td>$49.95</td>
<td>This online course covers safe lifting practices, as well as important information that everyone should know about the most common back injuries.</td>
</tr>
<tr>
<td>Aerial and Scissor Lift Safety</td>
<td>$79.95</td>
<td>This online course helps learners identify, inspect, and safely use aerial and scissor lifts.</td>
</tr>
<tr>
<td>Agricultural Machinery Safeguarding</td>
<td>$39.95</td>
<td>This online course for protecting the health and safety of agricultural workers includes elements that will teach farm owners, managers, and their workers about the importance and design of machine safeguarding.</td>

### Backing Safety Fundamentals
- **$34.95**
- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: Thinking Driver

This online course explores the main risks associated with backing up a vehicle and offers simple solutions to reduce those risks.

### Basic Electrical Safety
- **$49.95**
- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: The Training Network

This online course trains employees to have a basic understanding of electricity and how it works. It covers the different types of electricity, such as low voltage, high voltage, and static electricity.

### Basic Rigging
- **$144.95**
- Duration: 5 Hours
- Pass Mark: 80%
- Developed By: Industrial Training International

This online course provides a quintessential introduction to rigging activities, including discussion, selection, and proper inspection of rigging equipment.

### Battery Safety for Telecommunications
- **$69.95**
- Duration: 2 Hours
- Pass Mark: 80%
- Developed By: UL Workplace Health & Safety

This online course provides the information needed to stay safe when working with batteries and power plants, including battery technology, battery hazards, and how to deal with battery acid spills and splashes.

### Bear Awareness
- **$39.95**
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: HSE Integrated

This online course covers information that will assist in the identification of different bear species, and teaches how to react appropriately should a bear be encountered in the wild.

### Behaviour-Based Safety
- **COMING SOON**
- Duration: TBA
- Pass Mark: TBA
- Developed By: SET Safety

This online course describes behaviour-based safety, a proactive systematic approach to safety that is based on understanding workplace behaviour, recognizing at-risk behaviour, and encouraging safer behaviour.

### Bloodborne Pathogens
- **$59.95**
- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

This online course helps employers provide a safe and healthy work environment for their employees and minimize the possibility of employee exposure to bloodborne pathogens.

### Bloodborne Pathogens: Exposure in the Workplace
- **$49.95**
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

This online course provides important information that workers and supervisors can use to protect themselves from being exposed to blood or blood-containing materials in the workplace.

### Boom Truck Safety
- **$199.95**
- Duration: 3 Hours
- Pass Mark: 80%
- Developed By: Crane Safety Ltd.

This online course provides the knowledge required to safely inspect, maintain, and operate boom trucks, as well as read and interpret load charts.

### Boom Truck Awareness
- **$99.95**
- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: Hard Hat

This online course provides information on the safe operation of powered mobile cranes. The course meets OSHA requirements for powered industrial boom trucks.

### Bucket Rescues
- **$59.95**
- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Accidents sometimes happen that require an employee to rescue a co-worker. This online course provides information necessary to respond appropriately if a bucket rescue is required.
AWARENESS

Canadian Welding Red Seal Self-Assessment $94.95
This online practice exam can be used to assess your welding knowledge prior to challenging the Red Seal journeyman exam.

CARGO SECUREMENT FLATBEDS

Cargo Securement Flatbeds $29.95
This online course explains the fundamentals of flatbed cargo loading and securement procedures, as well as driver pre-trip and en route responsibilities.

AWARENESS

Caught-In or -Between Hazards in Construction $49.95
Being caught in equipment or between heavy objects can lead to serious injury or death. This online course teaches how to recognize and avoid these hazards.

SAFETY

Chemical Safety $59.95
This online course explains the risks of exposure to chemicals in the workplace, and provides tips and strategies for working safely with and around chemicals.

AWARENESS

Chainsaw Safety Awareness $79.95
Chainsaw safety is critically important as chainsaws are often the most dangerous tool on a work site. This online course will increase understanding of the dangers of chainsaws and the steps required to operate them safely.

AWARENESS

Cold Stress $59.95
This online course teaches how the body reacts to cold conditions, how to recognize and prevent the most common types of cold stress, and how to treat cold stress injuries until medical personnel arrive.

AWARENESS

Cold Stress Training $59.95
This online course will help learners identify the nature, symptoms, and treatment of cold stress.

AWARENESS

Compliance, Safety, and Accountability for Non-Drivers $49.95
This online course provides an overview of Compliance, Safety, and Accountability (CSA), the specific ways that CSA affects non-driving personnel, and how non-drivers can have an impact on a company's CSA score.

DRIVING

Cargo Securement for Dry Vans $29.95
This online course explains key concepts and regulations related to the loading and securement of cargo for dry vans.

DRIVING

Change Management $49.95
There are many reasons why change initiatives fail more often than they succeed. This online course covers how to avoid those mistakes and implement change positively and successfully.

SAFETY

Chlorine Safety $59.95
This online course explains the risks of exposure to chlorine in the workplace and provides tips and strategies for working safely with and around chlorine.

SAFETY

Compressed Gas Cylinders $49.95
Compressed gas has many uses in today's work environments, including refrigeration, welding, and heating. This online course provides the information employees need to handle and transport these potentially volatile storage containers.

DRIVING

Commercial Driver Training Program $669.95
This online course package includes a variety of required and recommended courses that help commercial drivers meet legislated training requirements.

* Prices subject to change
Confined Space Awareness & Rescue $99.95
This online course focuses on general safety principles. It teaches recognition of potential confined spaces and safe practices, and also looks at the equipment necessary for safe entry, exit, and operations in confined spaces.

Confined Space Entry $89.95
This online course provides important information to individuals required to work within a confined space.

Confined Spaces: Dangerous Places $59.95
Confined spaces are dangerous places that have the potential to cause you very serious injury, or even death. This online course is designed to help reduce the risk of accidents when working in or near permit-required confined spaces.

Cranes, Derricks, Hoists, Elevators, and Conveyors for Construction $59.95
This online course will familiarize workers with the types of crane and derrick equipment that operate under the OSHA standard, as well as the practices that are necessary to work safely on and around this equipment.

CSA: Know the Basics $59.95
This online course provides drivers with an overview of the Federal Motor Carrier Safety Administration (FMCSA) and its Compliance, Safety, Accountability (CSA) program.

Daily Trip Inspection $89.95
This online course provides drivers with an understanding of how to properly perform their required inspections, as per National Safety Code compliance, and explains how to address any defects that may be found.

Dairy Workers: Animal Handling and Health $29.95
This online course provides a basic overview of some animal handling techniques that can be applied on the dairy farm. In addition, it will look at some of the hazards that arise while caring for and managing cattle.

Dairy Workers: Feed Handling and Storage Safety $29.95
Feed handling and storage safety is an important part of every dairy farm. This online course presents an overview of some of the most common risks that are associated with this type of work.

Confined Space Awareness for Entrants and Monitors $69.95
This online course provides an overview of confined spaces and explains how to safely manage confined space entries.

Confined Space Entry and Monitor $99.95
This online course defines confined and restricted spaces, explains the hazards associated with them, and provides methods for assessing, eliminating, controlling, and monitoring those hazards.

Confined Spaces: Entry Team Training - Construction Activities $59.95
This online course teaches how to identify the hazards in a permit-required confined space and recognize the precautions that must be taken before entering a confined space. Each entry team member's duties are discussed, along with rescue measures.

Criticality Safety $59.95
This online course will introduce learners to the correct actions that need to be taken to minimize the risk of an accidental nuclear criticality and radiation exposure.

Customer Service $44.95
Customer service can no longer be merely average or simply friendly; it needs to be remarkable. Here’s your opportunity to make that happen for your team. This online course teaches how to take customer service at your company to the next level.

Dairy Worker Safety Orientation Series $129.95
Work on a dairy farm is dynamic and rewarding, but also presents a variety of hazards. This online course consists of eight training modules that provide an introductory health and safety orientation for new and returning workers to the dairy industry.

Dairy Workers: Chemical Safety $29.95
Chemicals present in dairy operations include sanitizers, pesticides, veterinary medicines, and more. This online course teaches dairy workers how a substance might enter the body and how they can ensure that they are not exposed.

Dairy Workers: General Dairy Worker Safety $29.95
This online course outlines health and safety for dairy farm operations. It includes information on protection from common hazards, health and safety law, worker rights and responsibilities, and sources of additional information.
Dairy Workers: Machinery Safety in the Field $29.95
This online course highlights some basic principles of safety when working around farm machinery, as well as information about specific equipment and implements common to many dairy farming operations.

Duration: 90 Mins  Pass Mark: 80%  Developed By: Canadian Agricultural Safety Association

Dairy Workers: Personal Protective Equipment Safety $29.95
This online course looks at various types of personal protective equipment that are typically used in a dairy worker's environment, and discusses their selection, use, limitations, and proper maintenance.

Duration: 20 Mins  Pass Mark: 80%  Developed By: Canadian Agricultural Safety Association

Dealing with Difficult Conversations $49.95
Think of a difficult conversation you had recently. What would have made it go better? This online course provides tools and strategies to manage difficult conversations so that they are productive and effective instead of frustrating.

Duration: 60 Mins  Pass Mark: 80%  Developed By: Custom Learning Solutions Inc.

Defensive Driving (UK) $49.95
This online course explores the five components of the SAFER system of defensive driving: Space, Attitude, Foresight, Eyesight, and Responsibility. This course is for UK drivers.

Duration: 3 Hours  Pass Mark: 80%  Developed By: Custom Learning Solutions Inc.

Defensive Driving: 3 Demerit Reduction Program (Alberta) $99.95
Approved by the Alberta Government for removal of 3 demerit points from an Alberta operator's licence, this online Defensive Driving course covers important aspects of safe driving.

Duration: 3 Hours  Pass Mark: 80%  Developed By: Fleet Safety International

Defensive Driving Attitudes $53.95
This online course encourages drivers to think about the motivations and personal factors that cause excessive risk-taking and impulsive driving decisions.

Duration: 90 Mins  Pass Mark: 80%  Developed By: Thinking Driver

Defensive Driving Fundamentals $53.95
Driving is a serious responsibility. This online course explains how the Five Fundamentals of Defensive Driving can be used to reduce this risk to yourself and others.

Duration: 90 Mins  Pass Mark: 80%  Developed By: Thinking Driver

Disability in the Workplace $59.95
This online course familiarizes learners with the Americans with Disabilities Act (ADA) and its mandated requirements.

Duration: 20 Mins  Pass Mark: 80%  Developed By: Vivid Learning Systems

Dairy Workers: Milking and Chores Safety $29.95
Dairy worker chores can include a wide variety of activities, ranging from manual labour to equipment operation. This online course presents an overview of the hazards and safety strategies that can be used to remain safe while performing routine work.

Duration: 20 Mins  Pass Mark: 80%  Developed By: Canadian Agricultural Safety Association

Dairy Workers: Safety Around Robotics $29.95
Robotics on the dairy farm are becoming more common throughout Canada, and present a unique set of hazards. This online course is a basic overview of the hazards specific to this type of equipment in the dairy industry.

Duration: 15 Mins  Pass Mark: 80%  Developed By: Canadian Agricultural Safety Association

Defensive Driving $49.95
This online course explores the five components of the SAFER system of defensive driving: Space, Attitude, Foresight, Eyesight, and Responsibility.

Duration: 3 Hours  Pass Mark: 80%  Developed By: Fleet Safety International

Defensive Driving for Light & Medium Duty Vehicles $59.95
This online course teaches drivers of Class 1-6 light or medium duty vehicles about defensive driving preparation, hazard perception, and attitude—techniques that will help them stay safe on the road.

Duration: 60 Mins  Pass Mark: 80%  Developed By: JJ Keller

Defensive Driving for Light & Medium Duty Vehicles $97.95
This online course combines the online Defensive Driving Fundamentals and Defensive Driving Attitudes courses into one comprehensive driving program.

Duration: 4 Hours  Pass Mark: 80%  Developed By: Thinking Driver

Disability in the Workplace $59.95
This online course defines discrimination, outlines responsibilities for prevention, and explains appropriate responses to occurrences of discrimination.

Duration: 30 Mins  Pass Mark: 80%  Developed By: Vivid Learning Systems

* Prices subject to change
Excavation, Trenching, and Shoring Safety $59.95
This online course explains the proper planning and execution of excavations, as well as the hazards associated with them.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Exceptional Customer Service $49.95
This online course helps develop the attitude and skills necessary for delivering exceptional customer service, and shows how to translate them into action on a daily basis.

- Duration: 2 Hours
- Pass Mark: 80%
- Developed By: Custom Learning Solutions

Eye Safety $49.95
Statistics show that eye injuries occur frequently in the workplace. This online course uses a combination of audio, full-motion video, text, and colourful graphics to explain how to prevent eye injuries.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Fall Prevention for Construction $49.95
This online course helps learners recognize fall hazards and teaches the proper measures that must be used to ensure safety when working at heights. It covers regulations 29 CFR 1926 Subpart M.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Fall Protection (Alberta Edition) $99.95
This online course provides you with the knowledge to help minimize fall hazards and protect yourself and others from serious injury.

- Duration: 2.5 Hours
- Pass Mark: 80%
- Developed By: Alberta BC Safety

Fall Protection Training $78.95
This online course is designed for people who plan, supervise, or perform work at heights. It covers many aspects of fall protection, including planning, equipment, safety measures, and controls.

- Duration: 3 Hours
- Pass Mark: 80%
- Developed By: AAE Safety Instructor Training

Fire Extinguisher Use $49.95
This online course explains why things burn, describes common types of fire extinguishers, and discusses how to use fire extinguishers to fight small fires.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Fire Prevention and Response $59.95
Great for both first-time and refresher training, this online course covers the basics that everyone should know about fire safety and prevention.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Excavator Operation and Safety $99.95
This online course introduces excavator equipment, including their anatomy, maintenance, hazards, safe operation, and more. This course satisfies OHS’s requirements for the classroom portion of operator safety training.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Hard Hat

Extreme Driving Conditions $69.95
This online course provides information on how to handle extreme weather conditions on the road, including how to drive on different road surfaces and how to prepare for driving in very hot or cold weather.

- Duration: 2 Hours
- Pass Mark: 80%
- Developed By: UL Workplace Health & Safety

Fall Prevention and Protection for the Telecommunications Industry $69.95
This online course for telecommunications workers provides an overview of safe practices that can prevent falls and minimize the impact of any falls that do occur.

- Duration: 2 Hours
- Pass Mark: 80%
- Developed By: UL Workplace Health & Safety

Fall Protection $99.95
This online course provides valuable information on how to minimize fall hazards and prevent serious injury.

- Duration: 3 Hours
- Pass Mark: 80%
- Developed By: Alberta BC Safety

Fall Protection Awareness Online $49.95
This online course provides employers and employees with a basic understanding of workplace fall hazards, as well as control measures that can mitigate or eliminate those hazards.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: Alberta BC Safety

Fatigue Management for Supervisors $69.95
This online course is designed to help organizational leaders understand fatigue, learn how it affects their employees, and discover fatigue dangers in their organization.

- Duration: 2 Hours
- Pass Mark: 80%
- Developed By: Fleet Safety International

Firefighting & Fire Extinguisher Safety $79.95
This online course provides the basic knowledge and skills required to fight a small fire. Topics include the different types of fires, fire extinguishers, and extinguishing agents; fire extinguisher operation; and firefighting procedures.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: Astec Safety Inc.

Fire Safety Awareness $59.95
This online course will familiarize learners with fire prevention plans and how to create and implement them effectively.

- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems
First Aid Awareness
$39.95
This online course teaches how to respond appropriately to injuries and medical emergencies. This course is appropriate for those with or without prior first aid training.

Duration: 60 Mins  Pass Mark: 80%  Developed By: Inter Provincial Safety Resources

First Aid Interactive Refresher
$29.95
This online course is a collection of emergency simulations that provides opportunities to practice first aid and safety management.

Duration: 45 Mins  Pass Mark: 80%  Developed By: SOS First Aid and Safety Training

Fluid Injection Awareness
$69.95
Pressurized fluids are extremely hazardous, and can lead to serious injury or death. This online course identifies the hazards, teaches how to mitigate risk, and covers basic first aid methods.

Duration: 60 Mins  Pass Mark: 85%  Developed By: International Hydraulic Safety Authority

Forklift Fundamentals
$59.95
This online course provides an overview of key aspects of safe forklift operation, through discussion of forklift types, features, controls, and safety devices.

Duration: 30 Mins  Pass Mark: 80%  Developed By: Vivid Learning Systems

Forklift Training (Counterbalanced)
$99.95
This online course aims to reduce the risks related to sit-down, vertical mast forklifts by teaching how to become a safe lift truck operator.

Duration: 2 Hours  Pass Mark: 80%  Developed By: Leavitt Machinery

Forklift Workshop for Construction
$49.95
This online course explains the essential forklift safety practices that must be used to operate a construction forklift safely, responsibly, and productively.

Duration: 60 Mins  Pass Mark: 80%  Developed By: JJ Keller

Formaldehyde Safety
$59.95
This online course educates learners about the hazards related to formaldehyde, and explains how to identify and mitigate the risks related to formaldehyde exposure.

Duration: 30 Mins  Pass Mark: 80%  Developed By: Vivid Learning Systems

Front End Loader Operation and Safety
$99.95
This online course is an introduction to front end loader equipment anatomy, maintenance and inspections, safe operation, attachments, and more. This course satisfies the classroom portion of Canada’s operator safety training requirements.

Duration: 90 Mins  Pass Mark: 80%  Developed By: Hard Hat

First Aid Basics
$49.95
This online course teaches how to provide basic first aid in emergency situations that may arise at work, at home, and in the community.

Duration: 60 Mins  Pass Mark: 80%  Developed By: JJ Keller

Flammable Liquid Safety
$59.95
This online course helps learners identify flammable liquids, understand their related hazards, and learn how to safely work with these substances.

Duration: 45 Mins  Pass Mark: 80%  Developed By: Vivid Learning Systems

Food Safety Basics
$29.95
It is estimated that there are between 11 and 13 million cases of food-borne illness in Canada each year. This online course covers the importance of food safety and preventive measures to keep people safe from food-borne illness.

Duration: 5 Hours  Pass Mark: 80%  Developed By: Canadian Food Safety Group

Forklifts: Advanced Hazard Awareness
$49.95
This online course helps operators sharpen their hazard perception skills using various hazard avoidance scenarios. This course helps satisfy the training requirements of OSHA’s Powered Industrial Truck Standard (1910.178).

Duration: 30 Mins  Pass Mark: 80%  Developed By: JJ Keller

Formal Workplace Inspections
$44.95
This online course provides the tools and knowledge needed to conduct an efficient workplace inspection.

Duration: 90 Mins  Pass Mark: 80%  Developed By: AMHSA

Four-Wheel Drive Fundamentals
$49.95
This online course provides the basic information required for safe operation of commercial four-wheel drive and all-wheel drive vehicles.

Duration: 30 Mins  Pass Mark: 80%  Developed By: Thinking Driver

Gas Detection
$99.95
This online course provides information about how to detect and control flammable and toxic atmospheres while working around potentially dangerous gases.

Duration: 2 Hours  Pass Mark: 80%  Developed By: Safety Man Canada Ltd.

* Prices subject to change
GHS Awareness $19.95
Intended for handlers of hazardous chemicals, this online course introduces general awareness under OSHA 29 CFR 1910.1200.

Duration: 90 Mins  Pass Mark: 80%  Developed By: ICC Compliance Center

GHS for Supervisors $99.95
This online course is intended for supervisors, managers, or chemical specialists who are responsible for health and safety in the workplace. This course covers the new requirements under HAZCOM 2012 29CFR 1910.1200.

Duration: 3 Hours  Pass Mark: 80%  Developed By: ICC Compliance Center

Goal Setting $19.95
This online course explains the importance of goal setting to personal success, identifies common challenges faced on the road to achievement, and provides step-by-step strategies for realizing personal and professional goals.

Duration: 45 Mins  Pass Mark: 80%  Developed By: BIS Training Solutions

Ground Disturbance Awareness $49.95
This online course is intended for employees who will need to understand and implement any kind of ground disturbance.

Duration: 90 Mins  Pass Mark: 80%  Developed By: Astec Safety Inc.

H2S $99.95
Intended for individuals at risk of exposure to hydrogen sulphide in the workplace, this online course provides important information regarding exposure, potential health effects, and what to do in an emergency.

Duration: 2 Hours  Pass Mark: 80%  Developed By: AAE Safety Instructor Training

Hand Safety $59.95
This online course familiarizes learners with common hand hazards, and explains the strategies and equipment that can help prevent hand injuries.

Duration: 30 Mins  Pass Mark: 80%  Developed By: Vivid Learning Systems

Harassment Prevention $39.95
This online course defines and demonstrates various types of harassment and bullying, and explains the responsibilities of supervisors, including those outlined in Ontartia Bill 168 and BC Bill 14.

Duration: 60 Mins  Pass Mark: 80%  Developed By: Workplace Training Network

Hazard Communication $69.95
This online course is designed to provide workers with the information they need to recognize and avoid hazardous chemicals in the workplace.

Duration: 2 Hours  Pass Mark: 80%  Developed By: UL Workplace Health and Safety

Ground Disturbance 201 (Proctored) $114.95
This virtually proctored online ABCGA-endorsed course is for planners, managers, supervisors, or employees who are required to develop, plan, and implement any kind of ground disturbance.

Duration: 6 Hours  Pass Mark: 80%  Developed By: Astec Safety Inc.

Ground Disturbance for Supervisors 201 $94.95
This online ABCGA-endorsed course is for planners, managers, supervisors, or employees who are required to develop, plan, and implement any kind of ground disturbance.

Duration: 5 Hours  Pass Mark: 80%  Developed By: Astec Safety Inc.

Hand & Power Tools for Construction $49.95
This online course explains the importance of hand and power tool safety in construction workplaces.

Duration: 60 Mins  Pass Mark: 80%  Developed By: JJ Keller

Hand, Wrist, and Finger Safety $49.95
Each year, nearly one out of four on-the-job accidents involves hands, wrists, and fingers. This online course provides valuable information that can be used to prevent injury to these important body parts.

Duration: 45 Mins  Pass Mark: 80%  Developed By: JJ Keller

Hazard Assessment $49.95
This online course provides an understanding of the importance of hazard assessments, as well as their impact on the overall performance of health and safety management systems.

Duration: 75 Mins  Pass Mark: 80%  Developed By: Integrated Safety Solutions

Hazard Communication Awareness $59.95
This online course provides important information regarding hazard communication, including safety data sheets, pictograms, the potential health effects of hazardous chemicals, and what workers can do to make every workday safe.

Duration: 60 Mins  Pass Mark: 80%  Developed By: Vivid Learning Systems
Hazard Communication in Construction Environments $49.95
This online course introduces employees to hazard communication regulations and provides training on the various types of chemicals found in building and construction environments.

- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazardous Waste Management $59.95
This online course helps learners identify hazardous wastes and understand the regulations and requirements regarding their safe handling and storage.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Hazmat: General Awareness $49.95
This online course will familiarize learners with the Hazardous Materials Regulations (HMR) to help them work safely around hazardous materials. This course satisfies the General Awareness training requirement 49 CFR §172.704(a)(1).

- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Loading/Unloading & Load Segregation $59.95
This online course teaches proper hazmat loading, unloading, and load segregation. Note: learners should have taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 15 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Packaging $59.95
This online course explains how to select appropriate hazmat packaging. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 15 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Reporting an Incident $59.95
This online course explains hazmat reporting procedures. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 15 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Shipping Papers $59.95
This online course explains hazmat shipping papers and retention requirements. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat Training Made Easier $59.95
Proper training is a must before working with hazardous materials. This online course explains the rules for preparing and transporting hazardous materials.

- Duration: 2 Hours
- Pass Mark: 80%
- Developed By: JJ Keller

Hazard Identification, Assessment, and Control $44.95
This online course teaches how to stay safe on the job by explaining and demonstrating how to prevent injuries and illness in the workplace through hazard identification, assessment, and control.

- Duration: 2 Hours
- Pass Mark: 80%
- Developed By: AMHS

Hazcom: What You Need to Know (GHS Provisions) $59.95
This online course is for employees who could be exposed to hazardous chemicals. It complies with the initial and refresher training requirements of the Hazard Communication Standard and applicable GHS requirements.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Highway Transportation Driver Training $59.95
This online course teaches drivers how to transport hazardous materials safely. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Marking $59.95
This online course explains and identifies hazmat markings. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Placarding $59.95
This online course explains hazmat placarding specifications and requirements. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: Security Awareness & Safety $59.95
This online course explains hazmat security threats and emergency response procedures. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hazmat: The Hazardous Materials Table $59.95
This online course explains the hazmat table and its importance. Note: learners should have already taken Hazmat: General Awareness and Hazmat: Security Awareness & Safety, or have equivalent experience or training.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

HAZWOPER: Accidental Release Measures and Spill Cleanup $49.95
This online course discusses the plans and procedures necessary to safely contain and clean up a hazardous materials spill. This course meets the training requirements of OSHA’s HAZWOPER regulation (29 CFR 1910.120).

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

* Prices subject to change
HAZWOPER: Air Monitoring and Medical Program $59.95
This online course provides HAZWOPER training that covers the essentials of air monitoring procedures and equipment.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

HAZWOPER: Emergency Response and Decontamination $59.95
This online course provides HAZWOPER training that focuses on proper emergency response and decontamination procedures, including emergency scenarios, response plans, and decontamination equipment.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

HAZWOPER: Introduction to HAZWOPER for Waste Site Workers $59.95
This online course introduces employees to chemical hazard regulations and provides training on the various types of hazardous chemicals found in industrial environments.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

HAZWOPER Refresher $49.95
This online course is continuing education training for workers who have completed a 24- or 40-hour HAZWOPER course. It is updated annually to reflect changes in regulations, and meets regulatory requirements for 8 hours of annual refresher training.

- Duration: 8 Hours
- Pass Mark: 70%
- Developed By: eTraining Inc.

Hearing Conservation $59.95
This online course provides information about noise and hearing loss, including the impact of noise on hearing, identification of exposure levels that require hearing protection, and the requirements of a hearing conservation program.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Heat Stress $49.95
This online course explains how heat affects the body, details the steps employees can take to prevent heat stress, and teaches elementary first aid that can be given to workers affected by heat-related illness.

- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hot Work with Arc Welding $59.95
This online course helps learners identify the hazards of hot work, as well as the basic requirements to safely perform hot work.

- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

HAZWOPER: Confined Space Entry $49.95
This online course teaches how to eliminate or reduce potential exposure to hazardous materials in confined workspaces. It meets the training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120).

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

HAZWOPER: Hazard Recognition $59.95
This online course provides HAZWOPER training that covers how to recognize hazardous substances. The course includes basic toxicology concepts, job hazard analysis, and types of hazards at hazardous waste sites.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

HAZWOPER: PPE and Other Hazard Control Measures $59.95
This online course provides HAZWOPER training focusing on personal protective equipment (PPE) and control measures. It includes HAZWOPER PPE requirements, safe practices, and other standard operating procedures.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Head, Eye, & Face Protection: PPE Workplace Safety $49.95
This online course provides informative details about personal protective equipment for the head, eyes, and face, including hard hats, safety glasses, safety goggles, face shields, welding goggles, and welding shields.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hearing Safety and Conservation $29.95
This online course provides important information to individuals who are required to work in areas with noise levels that are dangerously high.

- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Heat Stress Awareness $59.95
This online course explains the causes and impact of heat stress, and identifies strategies and equipment that will help prevent injury.

- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Hours of Service $99.95
This online course is designed to provide an overview of Canada’s Federal Hours of Service regulations and enable an understanding of the legislation.

- Duration: 3 Hours
- Pass Mark: 80%
- Developed By: Wheels On / Astec Safety Inc.

Hours of Service: A Driver's Guide (USA) $49.95
This online course helps drivers understand US Hours of Service regulations and recordkeeping requirements.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Hours of Service: Driver Training (USA) $59.95
This online course is an overview of the FMCSA's hours of service (HOS) rules that drivers must comply with, including a detailed look at how to comply with the HOS regulations and how to maintain an accurate record of duty status.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Lattice Boom/Crawler Crane

This online course provides an introduction to lattice boom crane anatomy, maintenance and inspections, hazards, rigging, hand signals, safe operation, and more. This course satisfies OHS’s requirements for the classroom portion of operator safety training.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: Hard Hat

Leadership for Safety Excellence Online

This online course helps municipal supervisors understand their role in supporting their health and safety management system.

- Duration: 9 Hours
- Pass Mark: 80%
- Developed By: AMHSA

Leadership Vision

This online course explains the purpose and importance of a shared vision, and provides strategies for creating and implementing it within an organization.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: BIS Training Solutions

Learner’s Permit Preparation (Alberta Premium Edition)

This online course is specifically designed for aspiring drivers who need to write their Alberta Learner’s Permit Test. This premium program includes information on the SAFER System of defensive driving.

- Duration: 90 Mins
- Pass Mark: N/A
- Developed By: Fleet Safety International

Loader Backhoe Operation and Safety

This online course introduces loader backhoe anatomy, maintenance, hazards, safe operation, basic trenching, and more. This course satisfies OHS’s requirements for the classroom portion of operator safety training.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Hard Hat

Lockout Tagout in the Workplace

This online course covers the steps to correctly lock and tag out equipment, devices used for lockout tagout, and elimination of potentially fatal hazards through implementation of proper lockout tagout procedures.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: HRS Group Inc.

Machine Guard Safety

This online course teaches the dangers of working with machinery, and explains how to minimize those risks with proper installation and use of safety guards and devices.

- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: JJ Keller
This online course defines mechanical hazards associated with machinery use, and identifies the requirements and methods for machine guarding.

**Duration:** 30 Mins  
**Pass Mark:** 80%  
**Developed By:** Vivid Learning Systems

### Master Driver: Accident Procedures
This online course provides step-by-step procedures that describe what to do after a motor vehicle crash or incident.

**Duration:** 45 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Master Driver: Coupling & Uncoupling
This online course provides step-by-step procedures for safe coupling and uncoupling of singles, an overview of coupling and uncoupling doubles, and an explanation of areas where most coupling and uncoupling problems occur.

**Duration:** 45 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Master Driver: Extreme Weather Driving
This online course helps reduce incidents and crashes due to weather hazards by demonstrating what to do when bad weather strikes.

**Duration:** 45 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Master Driver: Night Driving
This online course can help save time, money, and lives. It discusses driver, vehicle, and roadway factors that can lead to night-time incidents and crashes, and provides helpful tips for increasing night-driving safety.

**Duration:** 45 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Master Driver: Rear End Collisions
This online course helps drivers recognize and change unsafe behaviors that can lead to costly rear end collisions, such as failing to maintain a safe distance and distracted driving.

**Duration:** 45 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Material Handling, Storage, Use & Disposal for Construction
This online course is designed to provide an introduction to handling materials on the job site, including moving, storing, and disposing of materials. It covers the regulations in 29 CFR 1926, Subpart H.

**Duration:** 60 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Motorcoach: Defensive Driving
This online course for motorcoach drivers teaches several important concepts, such as how driving a motorcoach differs from driving a normal vehicle, how to spot potential hazards, and how to manage speed and space to minimize danger.

**Duration:** 60 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Motorcoach: Vehicle Inspections
This online course for motorcoach drivers provides a step-by-step procedure for conducting pre-trip inspections, and an overview of what to look for during en route and post-trip inspections.

**Duration:** 60 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

### Motorized Pallet Jaks: Safe Operation
This online course explains how to inspect and operate a motorized pallet jack in a safe manner, and helps satisfy the operator training requirements under OSHA's Powered Industrial Trucks Standard (1910.178)(l).

**Duration:** 30 Mins  
**Pass Mark:** 80%  
**Developed By:** JJ Keller

---

* Prices subject to change
Naturally Occurring Radioactive Material (NORM) $59.95
This online course aims to equip workers who may be exposed to Naturally Occurring Radioactive Material (NORM) with a basic knowledge and understanding of NORM and the Ludlum 3-97 radiation survey meter.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Bravo Target Safety

Office Ergonomics $59.95
This online course explains how to recognize ergonomic problems, and explores practical solutions employees can use to help deal with ergonomic problems in the office.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Office Safety: It’s Not Magic $49.95
This online course, featuring nationally renowned magician Steve Faris, addresses common hazards found in the office environment and motivates employees to use best practices to ensure their safety.

- Duration: 15 Mins
- Pass Mark: 80%
- Developed By: The Training Network

Orientation: Train the Trainer $39.95
This online course is designed to teach supervisors and management about their responsibilities when conducting orientations, how to create a template or trainer’s guide, and how to effectively prepare for orientation sessions.

- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: AMHSA

Overexertion Injury Prevention $49.95
This online course teaches employees how the body functions, risk factors associated with overexertion type injuries, and preventative measures they can take to stay safe.

- Duration: 15 Mins
- Pass Mark: 80%
- Developed By: The Training Network

Overhead Crane Awareness $99.95
This online course describes various types of cranes and lifting devices, explains how to inspect and safely operate them, and provides information on recognizing the common hazards that are encountered when using them.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: Hard Hat

PDIC Professional Driver Improvement Course (Condensed) $69.95
This online course is the condensed version of the Fleet Safety International Professional Driver Improvement Course (PDIC). This condensed program has been developed specifically for professional truck drivers.

- Duration: 3.5 Hours
- Pass Mark: 80%
- Developed By: Fleet Safety International

Personal Protective Equipment: Safe at Work $49.95
Personal protective equipment (PPE) protects workers and their livelihoods when hazards are present in the workplace. This online course teaches employees and their managers how to properly choose, use, and maintain PPE.

- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Portable Fire Extinguisher Safety $59.95
This online course introduces the basics of fires and portable fire extinguishers, and demonstrates the techniques used to extinguish fires.

- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

### Respiratory Protection

**Price:** $29.95

This online course examines several topics relating to respiratory protection, including the importance of using proper respiratory protection, which respirator to use, proper seal checking, and more.

- **Duration:** 60 Mins
- **Pass Mark:** 80%
- **Developed By:** JJ Keller

### Rigging and Slinging Safety

**Price:** $199.95

This online course covers the regulations, practices, and techniques required to safely sling and rig loads according to CSA Z150-98, as well as ANSI and ASME standards.

- **Duration:** 4.5 Hours
- **Pass Mark:** 80%
- **Developed By:** Crane Safety Ltd.

### Right Turns—Left Turns—Intersections

**Price:** $59.95

This online course for commercial motor vehicle drivers demonstrates safe turn and intersection techniques in a variety of situations, including city and rural driving, single- and multi-lane roads, narrow streets, one-way streets, and roundabouts.

- **Duration:** 45 Mins
- **Pass Mark:** 80%
- **Developed By:** Hard Hat

### Rigging Knowledge Verification

**Price:** $49.95

This online exam, derived from the ASME B30 Standard, is designed to challenge riggers' knowledge of commonly used hoisting equipment and the requirements of everyday rigging.

- **Duration:** 60 Mins
- **Pass Mark:** N/A
- **Developed By:** Cranemasters

**Price:** $59.95

This online course prepares commercial motor vehicle drivers for roadside inspections and helps them understand the consequences of a failed inspection.

- **Duration:** 60 Mins
- **Pass Mark:** 80%
- **Developed By:** JJ Keller

### Safe Backing Procedures and Blind Spots

**Price:** $64.95

This online course, designed for individuals operating motor vehicles for both company and personal use, provides valuable information on blind spot awareness and safe backing procedures.

- **Duration:** 90 Mins
- **Pass Mark:** 80%
- **Developed By:** Hard Hat

### Respiratory Protection: PPE Workplace Safety

**Price:** $49.95

This online course helps learners recognize and respond to respiratory hazards, including atmospheres immediately dangerous to life or health (IDLH). This course covers the key elements required by OSHA for respiratory protection training.

- **Duration:** 75 Mins
- **Pass Mark:** 80%
- **Developed By:** JJ Keller

### Roadside Inspections

This online course focuses on numerous fundamental aspects of work site safety, including incident reporting, hazard recognition, fall protection, emergency response, and more.

- **Duration:** 2 Hours
- **Pass Mark:** 100%
- **Developed By:** SCSA

### Safety Leadership: A Supervisor's Responsibility

**Price:** $49.95

Although safety managers have overall responsibility for safety, supervisors retain the responsibility for their own employees' safety. This online course is designed to emphasize the safety responsibilities of supervisors.

- **Duration:** 20 Mins
- **Pass Mark:** 80%
- **Developed By:** The Training Network

### Safety: It's Your Responsibility

**Price:** $49.95

This online course highlights each employee's personal responsibility for their own safety and the safety of others. It covers the most common safety hazards found in the workplace, as well as the proper precautions needed to stay safe.

- **Duration:** 20 Mins
- **Pass Mark:** 80%
- **Developed By:** The Training Network

### Safety Leadership for Supervisors

This online course, designed for an organization’s safety leaders, is designed to help them learn the principles of safety leadership and master the coaching skills required to advance the organization’s performance and safety culture.

- **Duration:** TBA
- **Pass Mark:** TBA
- **Developed By:** Custom Learning Solutions

### Safety Showers and Eye Washes

**Price:** $49.95

This online course reinforces the importance of safety showers and eye washes by demonstrating situations where they should be used. It also describes the proper use of different types of showers and eye washes.

- **Duration:** 45 Mins
- **Pass Mark:** 80%
- **Developed By:** JJ Keller

Skid Steer Safety $49.95
This online course trains employees on how to safely operate skid steer loaders. Topics include pre-start inspection, working with attachments, preventing rollovers, and best work practices.
- Duration: 20 Mins
- Pass Mark: 80%
- Developed By: The Training Network

Slips and Trips: Workplace Safety $59.95
This online course teaches learners about the causes and costs of slips and trips. It also addresses workplace design and how to correct hazards.
- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Slips, Trips, and Falls: Hazard Perception Challenge $59.95
This online course is designed to increase employee awareness and perception of slip, trip, and fall hazards, and to foster proactive responses wherever hazards exist.
- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Spill Prevention, Control, and Countermeasure Plans $59.95
This online course will help learners identify the cause and effects of spillage, and better understand the regulations and requirements involved in spill prevention plans.
- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Standard First Aid $184.95
Available in Alberta, Saskatchewan, and Manitoba, this blended learning course teaches how to respond to a medical emergency. To receive Standard First Aid certification, both the online and in-class course components must be completed.
- Duration: 7 Hours
- Pass Mark: 80%
- Developed By: Inter Provincial Safety Resources

Standard First Aid with CPR and AED $129.95
This blended learning course covers information needed to respond to a medical emergency either on the job or at home. To receive Standard First Aid certification, both the online and in-class course components must be successfully completed.
- Duration: 6 Hours
- Pass Mark: 80%
- Developed By: Rescue 7

Stormwater Management $59.95
This online course covers stormwater pollution prevention plans, as well as best management practices, good housekeeping, and proper procedures to follow when fuelling vehicles and equipment.
- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Substance Abuse Awareness for Employees $49.95
Drug and alcohol abuse reduces morale and productivity on the job, and can endanger abusers and their co-workers. This online course addresses the dangers of substance abuse in the workplace.
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Slips and Trips for Construction $59.95
This online course is designed to help learners recognize and avoid slip and trip hazards. It will also teach them to take the proper measures to ensure their safety and the safety of others on a job site.
- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Slips, Trips, and Falls $59.95
This online course will help employees identify hazardous conditions and unsafe practices that can lead to slips, trips, and falls in the workplace.
- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: Vivid Learning Systems

Speed & Space Management $49.95
This online course helps drivers understand how their speed and space management can impact their ability to react to hazards and stop when needed.
- Duration: 30 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Stairways and Ladders for Construction $49.95
This online course explains the importance of stairway and ladder safety in construction workplaces, and covers applicable OSHA regulations regarding their use.
- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Standard First Aid Recertification $159.95
For current Alberta Standard First Aid certificate holders, this blended learning recertification course includes an online pre-examination theory review, an in-class skills refresher, a practical skills assessment, and a written exam.
- Duration: 3 Hours
- Pass Mark: 80%
- Developed By: Inter Provincial Safety Resources

Stand-Up Forklifts $99.95
This online course covers the anatomy, safe operation, proper inspection, and common hazards of stand-up forklifts.
- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: Hard Hat

Struck-By Hazards in Construction $49.95
This online course teaches how to recognize and avoid struck-by hazards. It covers OSHA regulations 1926 Subparts E, G, H, I, L, O, Q, R, S, V, X, and CC.
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Substance Abuse Awareness for Supervisors $49.95
This online course helps supervisors understand how to recognize, document, and handle workplace situations involving substance abuse.
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

* Prices subject to change
Supervisor Skills $49.95
This online course is intended to teach people in a supervisory role the best ways to handle difficult situations, resolve conflicts, and take control and responsibility in a crisis.
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Custom Learning Solutions Inc.

Suspended Scaffolding Safety $49.95
This online course helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain, and use scaffolding equipment.
- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Team Building for Supervisors $59.95
This online course helps supervisors contemplate what teamwork means in the workplace. The program focuses on how to better facilitate teamwork among employees to improve communication, cooperation, and productivity.
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: JJ Keller

Telehandler (Variable Reach Forklift) COMING SOON
This online course teaches how to safely inspect and operate telehandler equipment, and also provides an understanding of legislation governing telehandler operations.
- Duration: TBA
- Pass Mark: TBA
- Developed By: Leavitt Machinery

The Respectful Workplace $49.95
This online course describes the characteristics of a respectful workplace, demonstrates various types of harassment, and gives a comprehensive overview of relevant legislation in Ontario Bill 168, BC Bill 14, and the Canadian Human Rights Act.
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Workplace Training Network

Traffic Control Persons for Construction $59.95
This online course covers the techniques, equipment, and legal requirements for traffic control persons in a construction environment.
- Duration: 45 Mins
- Pass Mark: 80%
- Developed By: HRS Group Inc.

Transportation of Dangerous Goods (TDG) in Small Quantities $74.95
This online course covers the basic requirements of the TDG regulations, along with specific procedures for shipping consumer commodities as well as limited, small, excepted, and de minimis quantities.
- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: ICC Compliance Center

Transportation of Dry Ice $65.95
Dry ice is considered a dangerous good. This online course teaches how to ship goods with dry ice by ground or by air.
- Duration: 75 Mins
- Pass Mark: 80%
- Developed By: ICC Compliance Center

Utility Boom Trucks $99.95
This online course covers important aspects of utility boom trucks, including inspections, hazards, safe operation, rigging, and vehicle components.
- Duration: 90 Mins
- Pass Mark: 80%
- Developed By: Hard Hat

Trench Safety $99.95
This online course provides an introduction to trenching, including soil classification, protective systems, atmosphere, hazards, and more. This course satisfies OHS’s requirements for operator safety classroom training.
- Duration: 60 Mins
- Pass Mark: 80%
- Developed By: Hard Hat
