

LEARNING MANAGEMENT SYSTEM

An Enterprise-Level Learning Management Solution

Utilize our robust learning management system to build, host, and deliver your own online courses, tests, and surveys through our secure course player and exam engine.

An elegant and robust content solution.

Our enterprise-level learning management system allows you to quickly and easily create engaging training material using a wide variety of SCORM and multimedia files. Once your content is built and the desired course options set, easily assign it to your employees using access codes, the integrated training matrix, or individual, location, or role-specific permissions.

Compatibilities

SCORM 1.2 and 2004

Upload SCORM 1.2 and 2004 files developed with popular authoring tools, including Trivantis Lectora, Adobe Captivate, and Articulate Storyline 360.

Mainstream Media and Presentation Files

Easily create custom courses using a wide variety of popular file types, including images, videos, PDFs and PowerPoint presentations.

Exam Capabilities

Randomize questions and the order of answers to improve exam security

Upload hundreds of questions in seconds using the uploader template

Download printable exams and answer keys for classroom use

Bonus Features

Course Completion Notifications

Customizable Certificates

Form Integration

Virtual Proctoring

YouTube and Vimeo Playback

Document Uploader

Our document uploader allows users to upload their driver documentation and training certificates directly into an online course while completing it! These documents are sent to an administrator for approval. Once approved, the documents are used to fulfill a training topic and remove the associated requirement from the training gap report.
