# Course Development

## Course Development Services Designed to Heighten Your Company Training and Prepare Your Team for Work

## Elevate Your Online Training

Our experienced team collaborates with you at every step of the course development journey, from scripting to visualizing with storyboards, on-site shoots, and expert editing. We go beyond regulatory standards, making safety an integral part of every course and showcasing a shared commitment to workplace well-being.

# Additional Services

## Save Money with Course Licensing

Discover the flexibility and cost-effectiveness of BIS Course Licensing which grants you and your team unlimited access to a training course. We have a library of over 100 courses you can choose from which are available to be licensed.

With a single licensing fee, you can empower your entire team—employees, contractors, and new hires—with on-demand training, potentially saving tens of thousands of dollars in training costs and ensuring continuous skill enhancement.

## Cost-Effective Solutions: Image-Based Online Training

Engage learners with dynamic, cost-effective safety courses using captivating motion graphics and high-quality stock photography.

### Key Features:
- Craft a compelling script and storyboard.
- Utilize a vast range of online databases for powerful and affordable stock photography.
- Capture specific visuals with high-end camera equipment when needed.
- Ensure post-production excellence for every frame to enhance engagement.
- Conduct thorough quality assurance reviews to ensure accuracy, high standards, and alignment with learning objectives.

### Advantages Over Video Courses:
